Dear Ms. Dorch,

CERTIFICATION

Onvoy, Inc. (“Onvoy”) hereby certifies that public notice has been given regarding the rehomeing of its end office to new tandems pursuant to CFR § 51.325 through 51.335. Onvoy has provided notice to the industry of its pending end office rehome in LATA 346

METHOD OF NOTICE

On August 7, 2009 Onvoy provided industry notice of the end office rehome to be effective December 14, 2009. Notices were provided in the following manner:

1. Onvoy made changes to the Local Exchange Routing Guide identifying the new tandem homing arrangement.
2. A notification letter was sent to all wireless and local exchange carriers in LATA 346.
3. All interexchange carriers which terminate traffic to Onvoy received a notification that traffic would be rehomed.
4. A copy of the network change notice will be available to the public on the Onvoy public internet web site until the network change has been completed. The notice can be found at:

<http://onvoy.com/ncn/index.htm>

LEC CONTACTS

Technical questions relating to this change should be directed to Gary Hopkins, Gary.Hopkins@onvoy.com, (952) 230-4169.

All other questions relating to this change should be directed to Steve Miske, Steve.Miske@onvoy.com, (952) 230-4558.

Please contact me if you have any questions regarding the notice or this certification.

Thomas G. Burns
Consultant for Onvoy, Inc.

PUBLIC SHORT TERM NOTICE OF NETWORK CHANGE

pursuant to CFR 47, subsections 51.325 - 51.335

**Re-home One Office:
From LNNGMIMN20T Tandem
To LNNGMI014MD Tandem (Originating)
And LNNGMI015MD (Terminating)
in LATA 346 Lansing, MI**

Carrier

ONVOY, INC. - IN.
300 So. Highway 169, 7th Floor
Minneapolis, MN 55426

Date Changes are to Occur: Monday, December 14, 2009 8AM CST

Location of Changes: LATA 345 Lansing, MI.

Description of Change Planned: Onvoy plans to re-home (move) its End Office from the LNNGMIMN20T Ameritech access tandem to Onvoy's access tandems. Originating interLATA traffic, as well as originating wireless traffic will be served by the **LNNGMI014MD** access tandem immediately upon trunk group completions. The point code is for **LNNGMI014MD** is **222-101-006**. Terminating interLATA traffic, as well as terminating wireless traffic will be served by the **LNNGMI015MD** access tandem. The Point code for **LNNGMI015MD** is **222-102-002**. The following office will be impacted by the re-home:

SWITCH	EXCHANGE	NPA-NXX
LNNGMI013MD	Lansing	217-492 ; 217-294

Description of Reasonably Foreseeable Impact of the Planned Change: Carriers will need to update their network switch translations when network rearrangements and central office code activity occur for the affected NPANXXs. Carriers which are not interconnected to the access tandems specified will need to issue Access Service Requests (ASRs) ordering trunks to the new access tandems. ASRs need to be submitted no later than November 9, 2009. The following project name should be listed on the ASR: **LNNGMI**. The **LNNGMI015MD** access tandem will begin to complete terminating toll and wireless calls for the above end office(s) on the effective date. If an interconnecting carrier does not establish trunks to **LNNGMI015MD** calls will not be terminated to the carrier.

LNNGMI014MD/LNNGMI015MD are Point Of Interface (POI) CLLIs representing switching services provided by the **MPLSMNCD08T/PLMOMNBN03T** tandems. Carriers may choose to use existing trunking to these tandems if desired.
